PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in React Native, React.js, FastAPI, and AI-powered application development. Experienced in integrating LLM APIs, building scalable backend services, and developing production-ready mobile applications. Passionate about Artificial Intelligence and continuously expanding expertise in Machine Learning and modern AI technologies.

TECHNICAL SKILLS

- Frontend & Mobile: React Native (CLI/Expo), React.js (Vite), TypeScript, Redux Toolkit, Tailwind CSS
- Backend & Databases: FastAPI (Python), Node.js, Express.js, MongoDB, PostgreSQL, SQLite, SQLAlchemy
- AI & Automation: Large Language Model (LLM) Integration, LiveKit AI, Groq API, Prompt Engineering
- DevOps & Tools: Redis, Git, GitHub, Docker, Postman, RESTful APIs

PROFESSIONAL EXPERIENCE

Techloset Solutions – Faisalabad, Punjab, Pakistan

Software Engineer Trainee | July 2024 – Present

- Contribute to the development and maintenance of production-grade React Native mobile applications.
- Build clean, reusable, and responsive user interfaces using React Native CLI.
- Integrate secure RESTful APIs and manage complex application state using Redux Toolkit.
- Collaborate with senior developers using Git/GitHub in an Agile development environment.

TECHNICAL PROJECTS

Health Docs AI — Intelligent Document Processing Platform

Tech Stack: React (Vite), TypeScript, FastAPI, Gemini, Groq API, Pytesseract OCR, Celery, Redis, PostgreSQL

- Developed a full-stack AI-powered web application for automated medical document processing.
- Built AI-assisted workflows using OCR and Large Language Models to analyze medical reports and extract structured information.
- Designed REST APIs to connect AI services with the frontend application.
- Implemented asynchronous background task processing using Celery and Redis for OCR operations.
- Integrated Gemini and Groq APIs for intelligent report analysis and data extraction.

Evana — AI Life Coach Mobile Application

Tech Stack: React Native, Expo, FastAPI (Python), LiveKit AI, Groq API, Supabase, PostgreSQL

- Developed an AI-powered mobile application featuring real-time voice and text interactions.
- Integrated LiveKit AI and Groq API to enable low-latency conversational experiences.
- Built FastAPI backend services with JWT authentication and Supabase integration.
- Implemented AI workflows to extract structured information from conversations and generate personalized recommendations.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Government College University Faisalabad (GCUF) | Cumulative GPA: 3.53 / 4.00 | Graduation Year: 2025
